

Figure 2

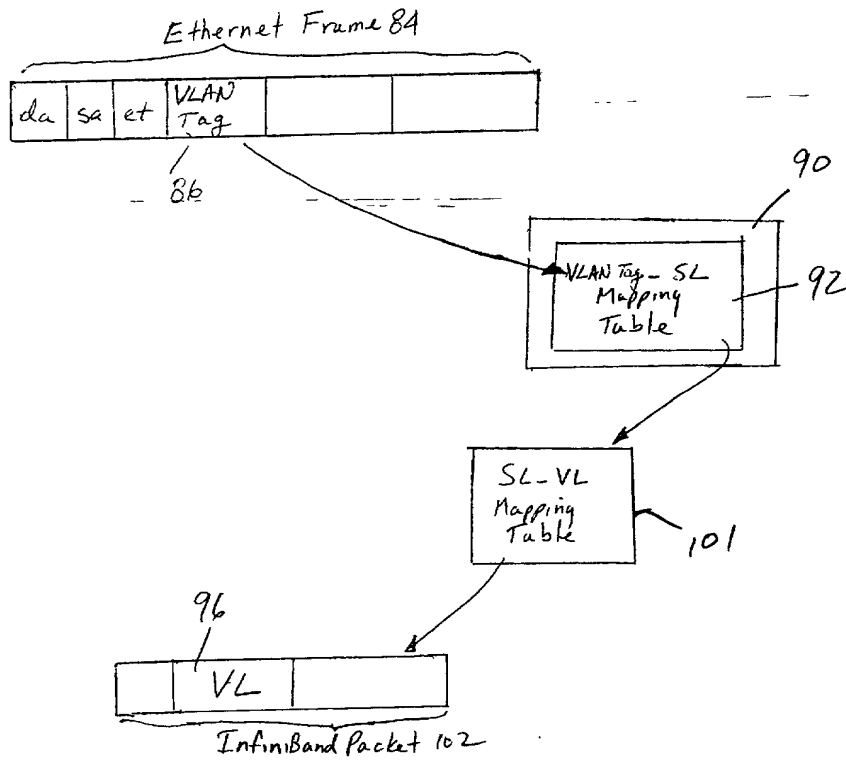

Figure 3

Figure 1 is a block diagram illustrating a network architecture. At the top, an oval labeled "Ethernet Domain" (93) is connected to a rectangular block labeled "Ethernet Interface" (97). This interface is part of a larger system (20) which contains an "Ethernet to InfiBand Controller" (99) and a "VLANTag-SL Mapping Table" (92). Below the controller is a block labeled "HCA" (90) which contains an "SL-VL Mapping Table" (101). The HCA is connected to an oval labeled "InfiniBand Domain" (95).
